Girbau Industrial Service Technician

Do you possess solid mechanical and electrical skills? Do you have experience with PLCs or basic machine controls? Do you want to grow your knowledge of robotics?

Continental Girbau is hiring field a technical support representative for the installation, commissioning and training of Girbau Industrial laundry equipment in North America. This is a hands-on working position relating to field services, equipment operation and product installations. Part of a global team, the GI Service Technician will support Continental Girbau Inc. and Girbau Spain on issues and trends affecting the serviceability of all Girbau Industrial product lines. You will have the opportunity to work directly with Girbau Technical Support personnel, Product Owners and Project Engineers and to influence product designs and functionality. Domestic and some international travel will be required for on-site installation and field service and/or to provide technical assistance and oversight to distributors and or end customers as needed.

Interested candidates please send cover letter and resume to hr@cgilaundry.com.

Our Mission: Your Success—Join our team today!

POSITIONS AVAILABLE

GURTLER INDUSTRIES, INC.

Laundry Chemical Sales, Technical Field Installation and Service Positions – Gurtler Industries, Inc.

Due to rapid growth GURTLER INDUSTRIES, INC. is increasing our sales and service force to support our expanding customer base. We are

looking for motivated applicants for Technical Laundry Chemical Sales, Installation and Service positions in various areas of the US: Northeast, Southeast, Central, and Southwest. Gurtler specializes in the manufacture of advanced chemical products and injection systems for the commercial laundry industry. We provide laundry specialty chemical service and expertise for the healthcare, industrial and linen supply markets.

Responsibilities include providing our customers with the highest level of technical support, establishing chemical usage and wash formula recommendations, installing chemical delivery systems with the Gurtler team, and promoting/selling and servicing our full line of solutions for our customers and prospects. Interested candidates should have basic technical aptitude with electrical and mechanical skills, computer skills with working knowledge with MS Office, experience in selling and interactions with customers a plus. Gurtler provides extensive training in the key aspects of serving our customers' needs.
